

Introducing the new FLEXI-ULife Life Protection Option

FLEXI-ULife offers a tailor-made plan with more flexibility and better options to meet your ever-changing needs. And to provide you with even more flexible benefits, we have now introduced a brand new life protection option — Incremental Benefit, in addition to Level Benefit and Increasing Benefit, the two life protection options currently available from the plan. From now on you are free to switch benefit options to better suit your circumstances at different points in time, subject to our then prevailing administration rule.

For details of the new Incremental Benefit, please refer to the document appended below.
